ABSTRACT: CONGRADULATIONS TO MOTHER INDIA!... for having reached the **MARS PLANET** (also called as “**RED PLANET**”) and become “**PIONEER**” in search of existence of life and possibility of Transforming future human populations into **MARS PLANET** for **inhabitation** for overcoming the earth climate issues and **subsistence of Life**.

This scientific research article focus that “**WHITE MARS**” shall be considered as the only planet in the entire cosmo Universe suitable for supporting and subsistence of human life besides “**EARTH PLANET**”. Hence journey has to be continued till further to reach **WHITE MARS** near white hole **J-RADIATION** region of universe for further exploration.

This research further focus that there are different types of Mars planet such as **White Mars, Dark Mars, Blue Mars, Green Mars, Red Mars** consider exist in “**different galaxies**” under different Environmental conditions. **White mars** shall be considered as the **1st stage** and **red mars** shall be considered as the **5th stage** of location in the material universe under “**strong downward gravity**” of different level.

It is further focused that the ‘**HUMAN ANCESTOR**’ shall be considered lived in **WHITE MARS** in the early universe with **extraordinary intelligence and wisdom**. During the course of expanding universe the human ancestor considered **TRANSFORMED TO EARTH PLANET** from white mars due to varied climatic condition. The transformation shall be considered like ‘**INFANT**’ transformed from ‘**MOTHER’S WOMB**’ which is considered as ‘**ONE WAY JOURNEY**’ and ‘**RETURN JOURNEY**’ is not possible until and ‘**REBIRTH**’.

“WHITE MARS belong to white galaxy (also called *milky galaxy*) shall be considered as “Mother of all planets”. Other mars planets belong to *Dark galaxy, Blue galaxy, Green galaxy, Red galaxy* shall be considered as supporting galaxies responsible for various environmental conditions of universe and not meant for supporting *inhabitation of human life*”.

- Author

It is focused that the living Earth Planet in the Universe considered located at the stage say ‘TAMBARAM’ and ‘Red Mars’ considers located at the stage “ST. THOMAS MOUNT”. The *white mars* considers located at stage of ‘PARK STATION’. Hence, further journey has to be performed through various stages of **GUINDY, SAIDAPET, EGMORE** to reach white Mars ultimately.

I. INTRODUCTION:

Thanks to “NASA” of United States of America for pioneering the mars exploration through ‘MARTIAN’ since 1883 for **benefit of global population** for possibility of future inhabitation of human population to overcome the present globe warming environment, and better harvesting of solar energy from **other galaxies**.

Composition of "Yellowknife Bay" rocks – rock veins are higher in calcium and sulfur than "Portage" soil – APXS results – Curiosity rover (March, 2013).

This scientific research article speculates that **HUMAN ANCESTORS** already lived in **White Mars of white galaxy** with outstanding Intelligence and wisdom capable of controlling effectively the fundamental parameters of **SUN, EARTH, MOON** considered as **FOUNDATION OF UNIVERSE** rather than ‘planets of solar

system'. It is further focused that the human ancestors lived in white mars shall be considered as having genetically varied characteristics say "MALE PREGNANCY" and the "FEMALE PREGNANCY" shall be considered as transformed from white Mars ancestors when population started living on EARTH PLANET during subsequent "Nuclear Age".

WHITE MARS ANCESTOR (Model Male Pregnancy)

It is further focused that "human ancestors" of white Mars shall be considered as worshiped as 'GOD' in the early universe. The philosophy of roman god of mars, greek god of Ares and other thousands of gods Earth planet might be derived from the philosophy of "God of white mars".

II. HYPOTHESIS AND NARRATION

a) Philosophy of white galaxy?...

Case study on Astronomical science focus that there are thousands of galaxies exist accommodating various planets, comets, asteroids, meteors orbiting within the respective galaxy. **Do galaxies serve any purpose for sustainability of human life?... Can human populations survive without existence of so many galaxies?...**

It is hypothesized that "Human Ancestors" considered lived in white mars under environment of only single galaxy say "White galaxy". The white galaxy considered contains only three planets say **white sun, white earth, white moon** having centered by **white mars**.

During the course of expanding universe the **white galaxy** gave birth to many other galaxies say **Dark galaxy** (also called as plasma galaxy) **Blue galaxy, Green galaxy, Red galaxy** in different nuclear ages. The

human ancestors lived in white mars consider transformed to earth planet at one stage and started living under existence of four distinguished galaxies exist above Earth planet and undergone varied genetic characteristics in different nuclear age. The philosophy of growth of various galaxy shall be described as below:

(MODEL GALAXIES)

Sl.No.	Name of galaxy	Mother planet	Three-in-one planets
1.	White galaxy	White mars	White sun, white earth, white moon
2.	Dark galaxy	Dark mars	Dark sun, Dark earth, Dark moon
3.	Blue galaxy	Blue mars	Blue sun, Blue Earth, Blue moon
4.	Green galaxy	Green mars	Green sun, green earth, green moon
5.	Red galaxy	Red mars	Red sun, red earth, red moon

It is further hypothesized that the **stage** of various galaxy and varied characteristics shall be hypothetically described as below for easy understanding.

- i) **Foundation of Universe**
(Sun, Earth, Moon) - **Tambaram** (0 KM)
- ii) **Red galaxy**
(UV, RF, IR) - **St.Thomas Mount** (5 KM)
- iii) **Green galaxy**
(Only UV, RF) - **Guindy** (10 KM)
- iv) **Blue galaxy**

- v) (Only UV) - Saidapet (15 KM)
Dark Galaxy
 (Plasma stage) - Egmore (20 KM)
- vi) **White galaxy**
 (e radiation) - Park Station (25 KM)
- vii) **J. Radiation**
 (White hole region virgin light) - Mint (30 KM)

b) Case study on Red Planet MARS?...

Case study shows that **MARS PLANET** (also called as Red Planet) is the fourth planet from the sun and third smallest in the solar system having similar characteristics of Earth planet having possibility of Human Inhabitation. Greek also called Red planet as ‘**Pyrolis**’ the Fiery (Fire star). Red planet further consider significantly less dense than Earth and no existence of **magnetic field** currently but the once the magnetic field might exist and subsequently lost during the course of expanding universe. The reddish colour is due to abundance of Hematite in its surface rocks.

It is hypothesized that the white galaxy and white mars shall be considered composed of only **WIND, RAIN, MUSIC** essential for supporting human life and subsistence of human life. Further the white mars planet shall be considered exist under “**SUPER SOLID STATE**” (White Element) beyond **TRIPLE POINT** of law of thermodynamics and all matters of universe shall be considered derived from ‘white mars’. Further it is focused that the wind, music, rain shall be totally free from atomic elements like **Hydrogen, carbon, Nitrogen, Ozone** and consider composed of only ions of photon, electron, proton due to impact of “**J-RADIATION**” having definite charge and electric, magnetic, optic properties. The ‘**Wind**’ (Free from oxygen) shall be considered like 1000 times pure than conventional **OZONE** having low PH value.

“The origin of various atomic elements like Hydrogen, Carbon, Nitrogen, Ozone (HCNO) and complex molecules shall be considered evolved in other Blue, Green, Red Galaxies in different Nuclear Ages”.

c) Case study on Etymology of Word MARS?...

It is hypothesized that the etymology of word MARS and other prehistoric astronomical words shall be considered derived from proto Indo Europe root as described below:

S.No.	Word	PIE	English Meaning
1.	J.Radiation	Thee	Virgin light
2.	Mars	Mari-e	Rain, Ray
3.	Radiation	Thri-e	Lightning
4.	Galaxy	Kal-e	Atmosphere

d) **Philosophy of Male Pregnancy in white mars?...**

It is hypothesized that the male parent (also called as **Male Angel**) responsible for male pregnancy by 'asexual means' by impact of **J-Radiation** and the white population (**virgin population**) shall be considered as produced and multiplexed. The female angel shall be considered as responsible only for assisting Male Angel for safe delivery. The Female Angel (**Queen**) shall also be called as "**Mother of Mars**" (Virgin).

(i)

**MODEL MALE ANGEL
(Male Pregnancy)**

(ii)

MODEL FEMALE ANGEL (Mother of Mars)

It is further focused that the philosophy of mars symbol considered derived from philosophy of “**Mars Trisomy**”. Mars Trisomy shall mean fundamental trisomy chromosome of **White mars organisms** having genetic characteristics of Angel populations (**Angel family**) responsible for **male pregnancy and Egg laying**. It is hypothesized that trisomy chromosome might be genetically undergone changes during ‘**Plasma Age**’ (in Dark galaxy) and organisms with **diploid chromosome and female pregnancy** might be formed during inhabitation of human population on the Earth planet.

e) Case study on Tesla Study?...

An 1893 soap ad playing on the popular idea that Mars was populated.

Case study shows that in 1899 Nikola Tesla observed repeated signals that he later speculated that the signals might have come from another planet possibly Mars. It is hypothesized that in the expanding Universe

the various Mars planets such as **White Mars, Dark Mars, Blue Mars, Green Mars, Red Mars** exists in various galaxies shall be considered as the source of energy derived from J-Radiation.

f) **Case study on Planet Ring?...**

Planetary ring refers to ring of cosmic dust and other small particles orbiting around a planet in a flat disc shaped region. It is hypothesized that the formation of planetary ring of each planet existing in the Universe shall be considered as two segments i.e. upper segment is influenced with upward gravity and lower segment considered influenced with downward gravity. The ring like region shall be considered as zero gravity of the planet. It is further focused that the different orientation of planets in the Universe shall be considered as orientation towards the respective Mars planet of the respective galaxies and considered exists under equilibrium condition otherwise called as **ORBIT RESONANCE**.

(MODEL DISTINGUISHED GRAVITY ORIENTATION)

III. CONCLUSION:

In the current solar system Sun is considered as center of the planetary system without consideration of comets, asteroids, meteors also orbiting in the respective solar system. It is hypothesized that the whole Universe shall be considered as different galaxies in which **MARS** shall be considered as the center of the solar system and **WHITE MARS** shall be considered as the mother of whole Universe.

It is further focused that the concept of **HEAVEN** shall be considered as the supernatural system in which galaxies shall be considered as integral part of heaven. Further the integrated galaxy system shall be considered equivalent to **STOMACH OF GOD** of white Mars.

**STOMACH OF GOD
(Galaxy System)**

*“The **White Mars** expedition is a bold move that will add significantly to our understanding of how to deal with the challenge of human exploration of the **Red Planet**.”*
